

Assignment 6 : Console Challenge

The image shows three sequential dialog boxes from a web browser, each with a title bar that says "chrome://new-tab-page says".

The first dialog box prompts the user to "Enter the first number". The input field contains the number "15". There are "OK" and "Cancel" buttons at the bottom right.

The second dialog box prompts the user to "Enter the operator (+, -, *, /, %)". The input field contains the asterisk symbol "*". There are "OK" and "Cancel" buttons at the bottom right.

The third dialog box prompts the user to "Enter the second number". The input field contains the number "12". There are "OK" and "Cancel" buttons at the bottom right.

The image shows a web browser's developer console with the 'Console' tab selected. The console displays the following JavaScript code:

```
> let num1=Number(prompt("Enter the first number"));
let num2=Number(prompt("Enter the second number"));
let opt = prompt("Enter the operator (+,-,*,/,%)");

let result;
if (opt == "+") {
    result = num1 + num2;
}
else if(opt == "-") {
    result = num1 - num2;
}
else if(opt == "*") {
    result = num1 * num2;
}
else if(opt == "/") {
    result = num1 / num2;
}
else if(opt == "%") {
    result = num1 % num2;
}
else {
    console.log("Invalid operator");
}
console.log("Result: ",result);
```

Below the code, the console output shows:

Result: 180

The console also shows a 'VM321:24' label on the right side of the output line. At the bottom of the console, there is a prompt character '>' and the text 'undefined'.
